CAPABILITY STATEMENT

ABOUT GKB IMPACT

Gnaala Karla Booja Aboriginal Corporation is one of the six Region Corporations established under the South West Settlement for the Noongar Nation. Operating with cultural authority for the Binjareb/Pinjarup, Wilman, Ganeang, and Wardandi Noongar language groups, the Corporation established a wholly owned subsidiary, GKB Impact, to establish and support enterprise and promote the economic development across the Noongar community. GKB Impact's mission is to bring opportunity through employment, education and training, and business while focusing on

protecting, promoting and enhancing the rich cultural heritage and priority care for country.

GKB Impact is committed to establishing strategic partnerships with organisations that share our foundational values of moort (family), kadjiny (understanding/knowledge), booja (country), and walbiriny (wholistic being). These partnerships bring industry support and capabilities from which we can sustainably grow and ensure ongoing progress towards self-determination, independence, and effective governance.

OBJECTIVES OF THE PARTNERSHIP

The strategic partnership between GKB Impact and Koomba Bidi focuses on generating self-governed prosperity and opportunity within, and across, the Noongar Nation in the civil construction industry. The partnership will bring employment and career opportunities for the Gnaala Karla Booja community, and support Noongar businesses with market opportunities previously inaccessible. The partnership seeks to increase market share within the South West region of Western Australia, supporting GKB Impact to drive social benefits through additional programs and services for its members.
