

Capability Statement

About GKB Impact

GKB Impact offers a promise of a strong future for the local Aboriginal community, working from its foundational values:

1. Moort (family)
2. Kadjininy (understanding/knowledge)
3. Booja, Kep, Karla, Worl (land, water, fire, & sky)
4. Walbirniny (wholistic being)

As the new business arm of Gnaala Karla Booja Aboriginal Corporation, **GKB Impact** focuses on building opportunities for the GKB community to have independence and governance over their social and economic circumstances, and to be resilient in their cultural identity.

What are the objectives of this joint venture

By *coming together* and building upon the strengths of GKB Impact and Tutt Bryant, we aim to create prosperity and foster wellbeing together. This joint venture looks to maximise the social and economic benefits in the South West region of WA, with a focus on opportunities in the construction industry for the members of the GKB community.

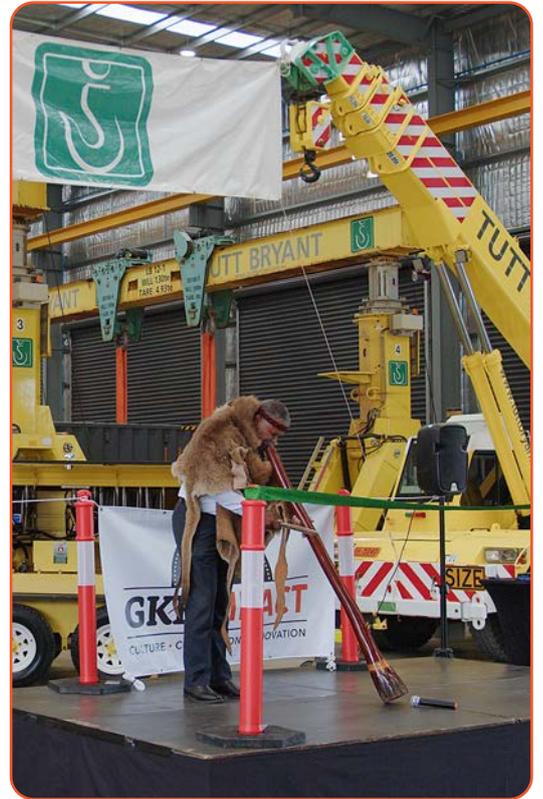

Through building these connections, the local community can be empowered to create positive social outcomes and have flow on effects to support GKB-owned businesses and having positive commercial outcomes too.

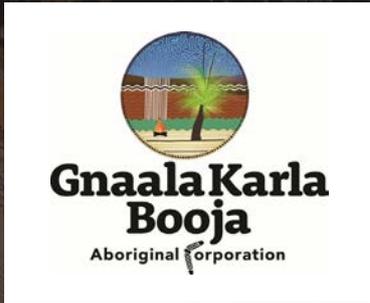

What we offer to the community

Through partnerships with government and private companies, GKB Impact aims to create sustainable employment opportunities that respect and celebrate the rich Aboriginal heritage while protecting and nurturing the land, story and song lines, language, traditional practices, and resources for future generations in the GKB region.

We will provide training and employment opportunities to empower the GKB community. We will also support GKB-owned businesses with resources, mentorships and networking opportunities. And to develop and run community programs and initiatives to educate and position the wider community to flourish.

"Coming Together" (*dandjoo koorliny* in traditional Noongar language)

About Gnaala Karla Booja Aboriginal Corporation

Gnaala Karla Booja Aboriginal Corporation (GKBAC) is one of the six regional corporations representing the rights and interests of the Aboriginal people of the Noongar region.

The Gnaala Karla Booja region refers to the Noongar language or dialectical groups of the Binjareb/Pinjarup, Wilman, Ganeang, and Wardandi.

Towards the east of the Gnaala Karla Booja region is the Balladong region and down south is the Wagyl Kaip region. The Gnaala Karla Booja region encompasses the towns of Bunbury, Capel, Donnybrook, Balingup, Wickepin, Narrogin, Williams, Mundijong, Kwinana, Brookton, Pingelly, Wagin, Harvey, Collie, Pinjarra, Mandurah, and Boddington.

GKB's vision is to provide support for its members in education and training, as well as community development projects.

Strong Future for GKB Members and Noongar people.

About Tutt Bryant

Tutt Bryant Group Limited is an industrial services organisation providing sales, hire, parts, service and engineering solutions to the construction, mining, engineering and trade sectors throughout Australia.

Since its humble beginnings in 1938 as a manufacturer and supplier of earthmoving and construction equipment, Tutt Bryant has grown to be a diverse organisation operating in three distinct areas:

1. Equipment Sales & After-Sales Support

As a national multi-franchise distributor of earthmoving and construction equipment, Tutt Bryant Equipment exclusively represents a number of global brands in Australia. In addition to capital equipment sales, Tutt Bryant Equipment supports its customers in the provision of spare parts, consumables, mechanical service, repairs and other support functions.

2. General Equipment Hire

Our diverse equipment range includes earthmoving, excavators, compaction, access, materials handling, traffic management, air compressors, lighting & power, welding, site accommodation, pumps, and others. Tutt Bryant Hire caters to various industries, from earthmoving, civil construction, mining, and rail maintenance to industrial, trade, and DIY users.

3. Cranes, Heavy Lifting & Specialist Transport

Operating one of the largest crane fleets in Australia, Tutt Bryant Heavy Lift & Shift provides both wet (with operator) and dry (without operator) crane hire, as well as engineered turnkey solutions to meet all heavy lifting and transportation needs of major projects. The conventional crane fleet is supplemented by specialised lift & shift assets, such as modular transporters (including self-propelled units), hydraulic jacking systems and other skating and skidding equipment.
