- Traineeship programs

Capabilities

Sustainable Economic Development

- Cultural and nature-based tourism
- Carbon sequestration and emissions reduction through planting projects
- Cultural products and services
- Traditional food and medicine harvesting
- Capacity building and training

Key Features

Community-led

Our program is designed and implemented in partnership with Elders and Traditional Owners, ensuring ownership and cultural sensitivity.

Holistic Approach

We address environmental, cultural, and economic sustainability simultaneously, fostering a thriving and resilient future for our communities.

Cultural Respect

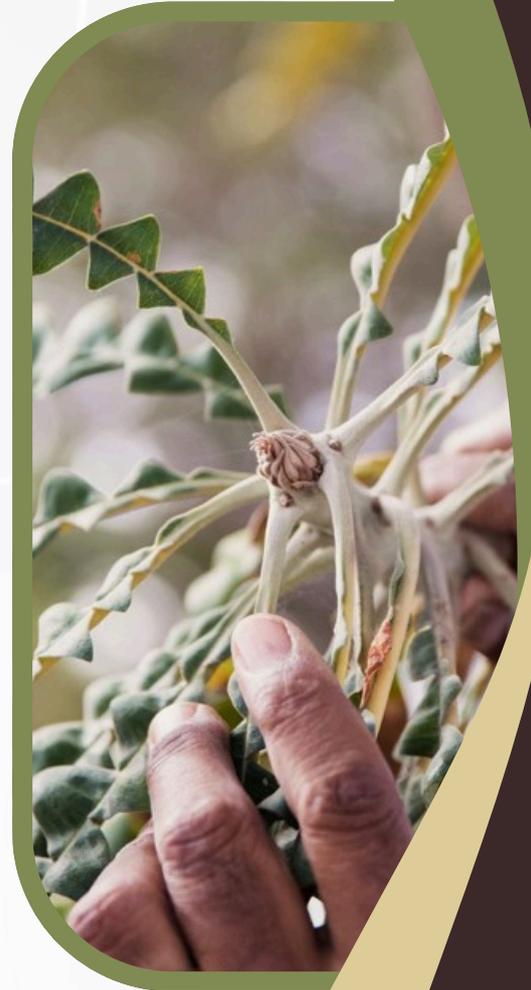

We recognise the deep connection between Aboriginal people and their traditional lands and waters, and we operate in a culturally appropriate way.

Economic Empowerment

We create sustainable income streams through our commercial programs and services, as well as opening up many career pathways for employees.

Innovation

We embrace innovative approaches to conservation and economic development, such as fee for service arrangements and cultural tourism.

Benefits

Improved environmental
outcomes for the
Southwest of
Western Australia

Preservation and
revitalisation of
Aboriginal culture

Enhanced community
well-being and
self-reliance

Stronger partnerships
between Aboriginal
ranger groups and other
stakeholders

Sustainable economic
opportunities for
Aboriginal communities
