

Expression of Interest – Professional Environmental Services

Gnaala Karla Booja Aboriginal Corporation;
GKB Impact

**Gnaala Karla
Booja**
Aboriginal Corporation

Preamble

As we embark on establishing a professional environmental service, we are seeking Expressions of Interest (EOI) from consultants, who would like to be considered for upcoming work.

Respondents are requested to provide details of their qualifications and relevant experience, together with an estimated price for any, or all, of which appear in the Fee Schedule below.

Qualifications and experience

- Degree qualifications in Environmental Science, Environmental Management, Ecology, Natural Resource Management, Sustainability, Planning, or related disciplines.
- Demonstrated knowledge of Western Australian environmental legislation and approval processes.
- Experience preparing or reviewing submissions.
- Experience with environmental approvals, impact assessments, offsets, monitoring programs and compliance reporting.
- Understanding of Aboriginal heritage, land use agreements and Indigenous-led environmental management.
- Experience mentoring Aboriginal organisations and transferring knowledge to build internal capability.

Scope of Services

Note: No guarantee is provided as to the volume of each of the below services.

1. Coordination and review of environment-related submissions to DWER/EPA within the GKB ILUA

Provide coordination, review and quality assurance for GKBAC environmental submissions to ensure compliance with Western Australian regulatory standards and GKBAC's Strategic Plan.

2. Stakeholder engagement

Represent GKBAC/ GKB Impact at meetings, briefings, industry engagements and negotiations, relating to environmental issues.

3. Professional Advice

Provide GKBAC/GKB Impact with advice on environmental matters relating to projects, development and scopes of work received from industry.

4. Actively seek capability partner

Implement and oversee a structured process to identify and progress a commercial relationship with a suitable capability partner, to support GKBAC/GKB Impact in the staged delivery of environmental surveys and environmental monitoring programs.

5. Communications

Develop internal and external communications, to keep staff and our members informed of relevant environmental matters, and major service delivery milestones.

6. Recruitment support

Prepare relevant job descriptions and provide SME recruitment support for professional environmental roles, to build internal capacity.
